Phone: 9625915567
Email: kamyajohar21999@gmail.com
LinkedIn: https://www.linkedin.com/in/kamyajohar/

A seasoned IT Engineer with two years of hands-on experience, transitioning seamlessly into the field with a diverse skill set. Proficient in crafting user-friendly and adaptable web applications utilizing HTML, CSS, and JavaScript, complemented by expertise in both frontend and backend frameworks. Passionate about developing efficient and scalable full-stack solutions tailored precisely to user needs, ensuring optimal functionality and user satisfaction.

EMPLOYMENT HISTORY

Full Stack Developer Intern | Qviq, Delhi   Nov 2023 - Jan 2024

- Contributed significantly to building and refining various components for Qviq's flagship product.
- Played a pivotal role in developing the website as the company prepared for its launch.
- Ensured the smooth and efficient functionality of the site through my efforts.
- Aligned my work closely with the company's vision and objectives.
- Instrumental in achieving the company's goals during my tenure.
- Helped establish a strong foundation for Qviq's success in the SaaS industry.

Frontend Freelancer | Sona Constructions Pvt Ltd, Delhi   Mar 2023 - Aug 2023

- Developed and optimized web pages for responsive design, accessibility, and SEO. - Utilized GitHub for effective codebase management. - Created web applications utilizing React to enhance user engagement. - Designed cross-platform responsive pages for both mobile and desktop. - Partnered with backend teams to seamlessly integrate frontend functionalities. - Performed user research to drive data-driven design decisions.

Senior IT Security Associate II | NTT Data Services, Noida   Jul 2021 - Nov 2023

- Well-versed in Active Directory and Azure Active Directory with strong understanding of the underlying technologies, such as **LDAP (Lightweight Directory Access Protocol)** and **Single Sign-On (SSO)**.
- **Configure, Manage, and troubleshoot** these directory services to ensure secure and efficient network and cloud-based application access for users.
- Experience working with application-specific tools and interfaces used for managing user access, such as **BuildPro, SDW Salesforce Identity, Pivotal Single Sign-On, and SharePoint.**

SKILLS

HTML5, Javascript(ES6), CSS3 | Front-End Technologies: React.js, Next.js | Back-End Technologies: Node.js, Express.js | Database Systems: MongoDB, MySQL | Version Control: Git, GitHub | Cloud Platforms: AWS, Google Cloud Platform | RESTful APIs | Data Structures

PROJECTS

Amazon 2.0(https://github.com/KamyaJohar02/Amazon_2.0)

Developed a responsive comprehensive e-commerce platform using Next.js and Redux, closely mirroring the functionality and design of Amazon
Implemented Firebase and Next Auth authentication to ensure secure user logins and data protection
Integrated Stripe for seamless payment processing, enhancing user experience and facilitating transactions

Task Management System(https://github.com/KamyaJohar02/ TodoList)

A Todo List application built with React, Node.js, and MongoDB. This application allows users to efficiently manage

their tasks, leveraging MongoDB for data storage and retrieval.

Self Play Dice Game (https://github.com/KamyaJohar02/Rolldice)

A captivating self-play dice game built with React. In this unique game, players challenge themselves to beat their own high score by rolling the dice and strategically increasing their points.

FoodyZone(https://github.com/KamyaJohar02/Foodyzone)

Easily explore and order food from the FoodyZone app, a user-friendly React-based platform offering intuitive search and ordering features.

Contact management with Firebase Contact App (https://github.com/KamyaJohar02/FirebaseContactApp)

Effortlessly organize your contacts with our seamless app. Input your information once and securely store it in Firebase for easy access anytime. Simplify contact management with quick retrieval and hassle-free access to your data.
